### Description

#### Product Brief

Your network is only as good as your infrastructure. Comsol Cat 6 patch cables are designed for high performance networks where maximum speeds and reliability are required. Ideal for connecting switches, storage devices, routers, modems, host adapters and patch panels. Our Cat 6 patch cables meet or exceed Cat 6 specifications including international TIA/EIA standards and are Carries the Regulatory Compliance Mark (RCM) to show each cable complies with all ACMA regulatory requirements.

Manufactured using 24AWG twisted pair stranded conductors and 3 Microns of gold on the connectors to guarantee maximum performance and to ensure reliable data transmission in the most demanding network environments. Our Cat 6 cables also feature staggered pin construction and offset twisted pairs to minimize Near End Crosstalk (NEXT) levels.

For durability and long lasting performance, our Cat 6 cables feature a snagless design moulded boot to prevent unwanted cable snags during installation and protects the RJ45 connector clips from damage.

#### Features

- Carries the Regulatory Compliance Mark (RCM) to show each cable complies with all ACMA regulatory requirements
- Supports 10/100Mbps Fast Ethernet
- Supports Gigabit Ethernet
- 24 AWG twisted pair stranded conductors
- RJ45 connectors with 3 micron gold plated contacts for superior signal
- Constructed using high quality componentry to minimize Near End Crosstalk (NEXT) levels
- Staggered pin construction to reduce signal interference
- Snagless design avoids cable snags and protects RJ45 connector from damage

## CAT 6: 1mtr RJ45 Cat 6 Patch Cable - Orange

---

- Performance rated up to 550Mhz
- CM rated PVC cable jacket
- Compliant to Australian Standard AS/CA S008:2031
