Description

Product Brief

This DVI to VGA display adapter is used to connect a DVI-I source signal to a VGA monitor. When a VGA monitor is connected to a DVI-I host, the DVI host adapter will detect the VGA monitor and will output an analogue VGA signal.

This is a passive adapter and will not convert an analogue VGA signal into a digital DVI signal.

Features

- Convert from DVI to VGA
- 1 x 12+5 Pin DVI-A Male
- 1 x 15 Pin VGA Female
- Supports resolutions up to 2048 x 1536
- Corrosion-resistant connectors designed for maximum conductivity and low signal loss
