Description

Product Brief

Mirror Expand the capabilities of your Windows, MacBook or Chromebook with this extensive Multi-Port adapter. Whether you are in the office, working from home or away on the road, this adapter will keep you up to speed and connected to all your favourite devices. Display your presentation or extend your desktop on any screen with video output on either HDMI or VGA. The HDMI supports up to 4K UHD @30Hz while the VGA is capable of Full HD 1920 x 1080 @60Hz. Connect to a wired network with a LAN port, connect peripherals with 3 x USB-A ports and transfer data at up to 5Gbps and use the 3.5mm audio port to connect speakers or headphones. Access portable digital media with an SD & Micro SD card reader and manage all this while connected to up to 100W USB-C Power Delivery (PD). This plug and play adapter works right out the box and needs no additional drivers or software installing.
